

# PR #821: worker geometry wins; full-frame gains remain uncertain

RTX 2070 SUPER / Linux · 10 alternating pairs per case · bars: median of run p95s · dots: individual runs

## Worker-only renderer · 1280×960

## Mixed-unit Scene · 800×600

Baked Rig

Exploratory shared-host measurements. Scene animation advances; simulation is frozen. M3 and other platforms are out of scope.
